

B6 Skill Tree Visualizations

Diablo 2-style column representation of three Reincarnated class skill trees

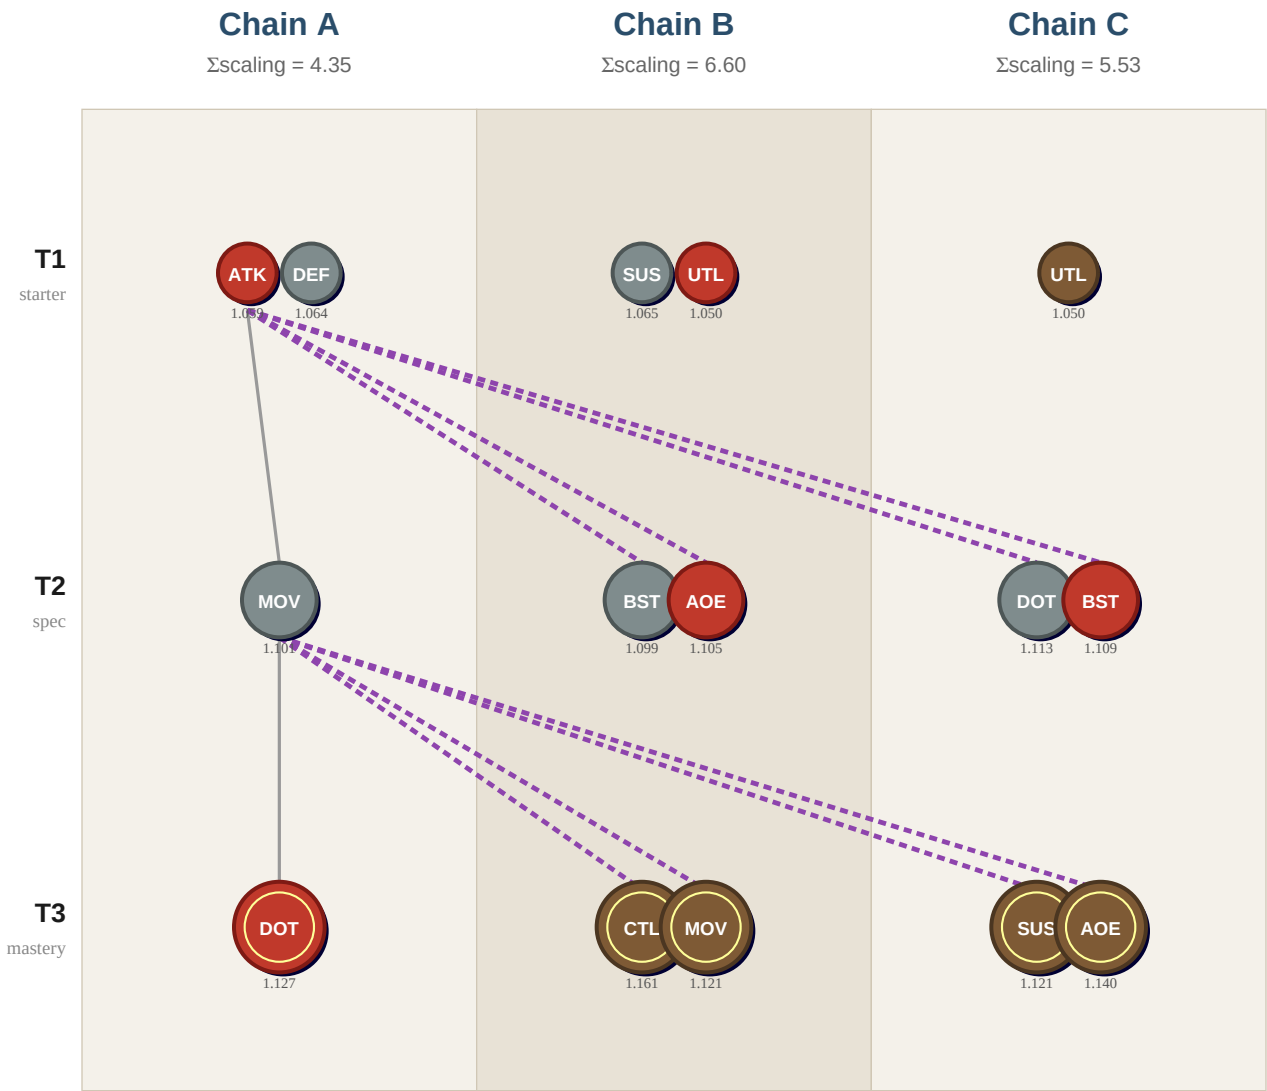

Each tree is rendered with tiers stacked vertically (T1 starters at top → T4 keystones at bottom), chains as side-by-side columns with alternating shading, and unlock edges as connecting lines. Node radius indicates tier; node color indicates canonical element; role is shown as 3-letter abbreviation inside each node. Scaling coefficient appears below each node. Cross-chain unlock edges (FLEXIBLE rule) are drawn with purple dashed lines.

Selection criteria for these three classes:

- 1. Hybrid mage** — multi-element class with FLEXIBLE cross-chain rule. Most visually complex tree; showcases cross-chain unlock edges and multi-element skill distribution.
- 2. Controller** — single-element class with STRICT cross-chain rule. Clean linear progression up each chain; representative of single-element caster archetypes.
- 3. Physical archetype** — non-caster class family. Different generator path; comparison point for how the same tree schema renders for melee/mobility-oriented archetypes.

Tree 1: hybrid_mage — class_0002 (season_001005)

Class identity: "class_0002" — dominant element: **water** — range profile: **medium** — energy type: **mana** — role orientation: **hybrid**

Observations

Structure: 15 skills across 3 chains, tiers 1–3. 8 cross-chain unlock edges (FLEXIBLE cross-chain rule).

Role mix: sustain (2), utility (2), mobility (2).

Element distribution: fire (5), wind (5), earth (5).

Mean scaling_coefficient progression: T1:1.058 → T2:1.105 → T3:1.134

Legend

Legend

Element:  fire  water  earth  wind  physical

Tier (radius):

Edges:

in-chain unlock

cross-chain (FLEXIBLE)

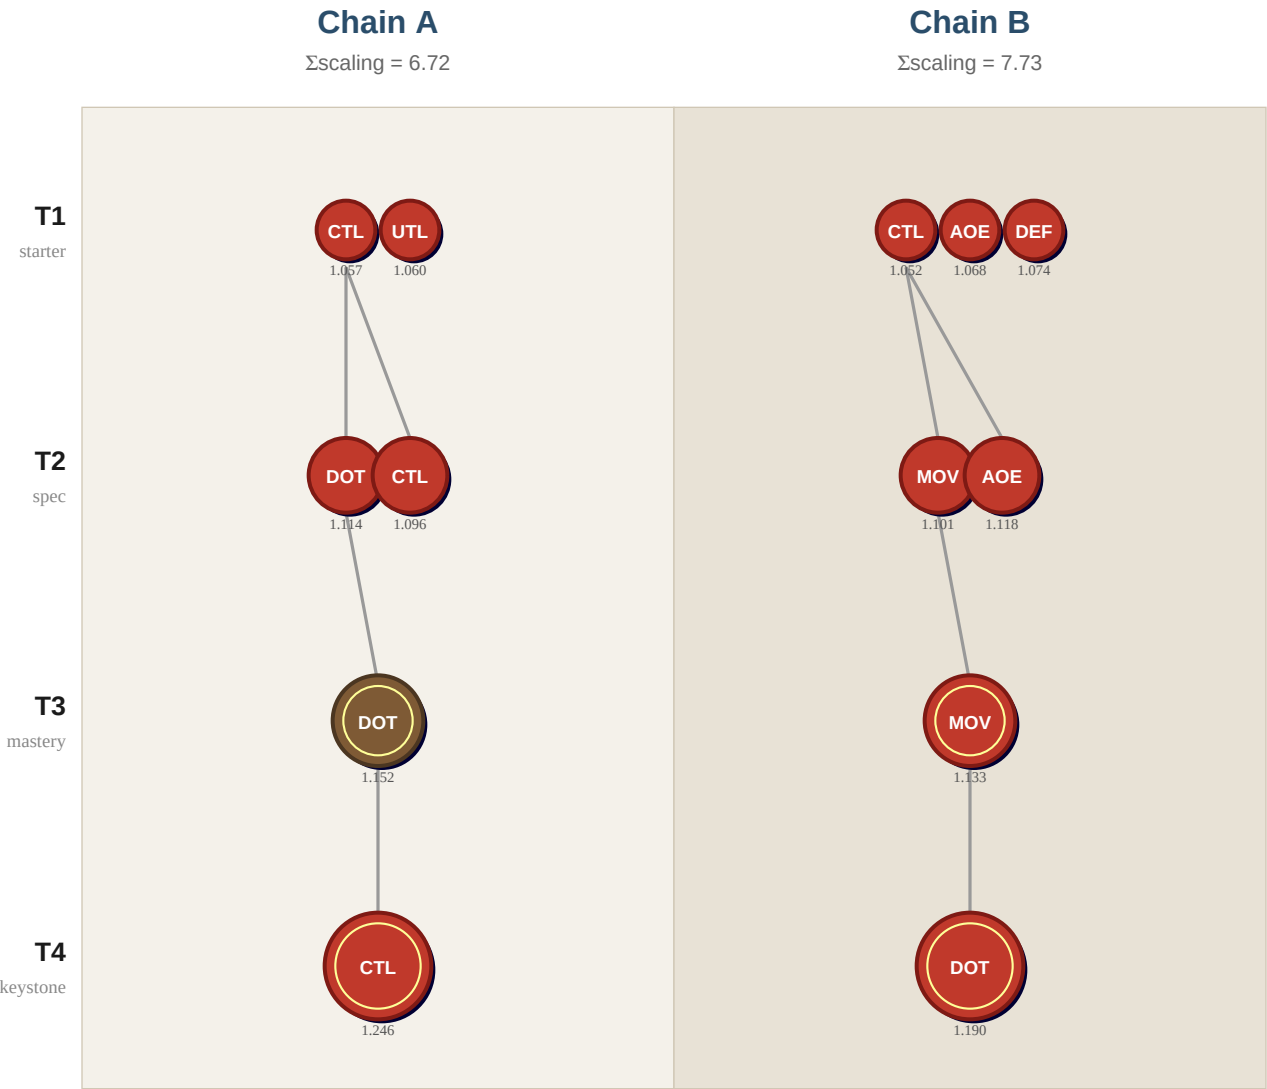

Roles:

ATK=prim BST=burs AOE=area DOT=dama CTL=cont DEF=defe

MOV=mobi SUS=sust UTL=util

Tree 2: fire_controller — class_0001 (season_001005)

Class identity: "class_0001" — dominant element: **fire** — range profile: **medium** — energy type: **mana** — role orientation: **control**

Observations

Structure: 13 skills across 2 chains, tiers 1–4. 0 cross-chain unlock edges (STRICT cross-chain rule).

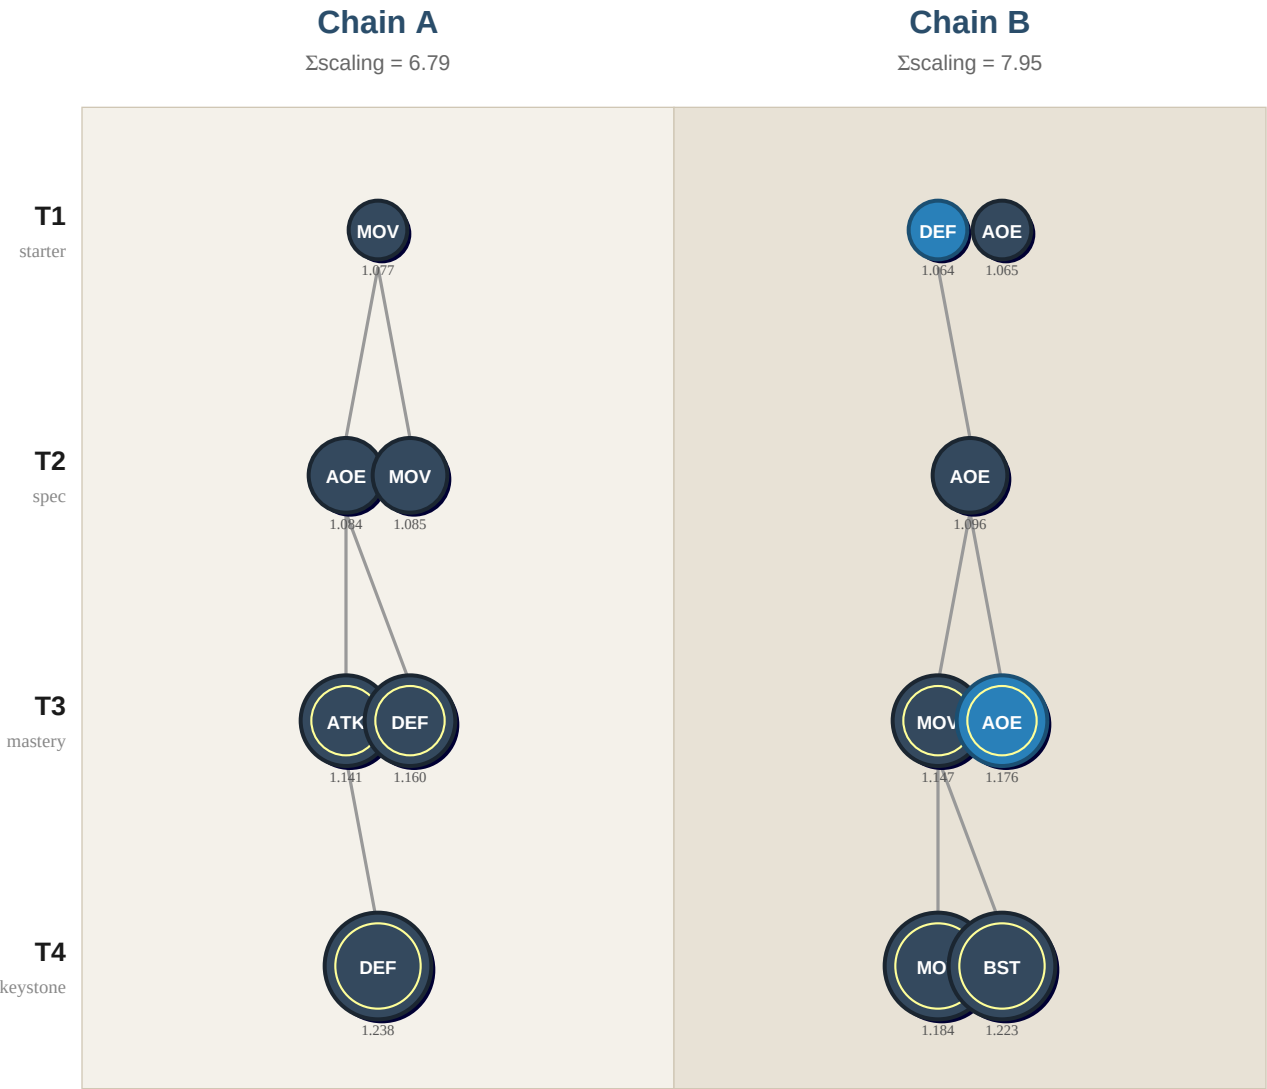

Role mix: control (4), damage_over_time (3), area_damage (2).

Element distribution: fire (12), earth (1).

Mean scaling_coefficient progression: T1:1.062 → T2:1.107 → T3:1.142 → T4:1.218

Tree 3: rogue — class_0005 (season_001005)

Class identity: "class_0005" — dominant element: **physical** — range profile: **medium** — energy type: **combo** — role orientation: **damage**

Observations

Structure: 13 skills across 2 chains, tiers 1–4. 0 cross-chain unlock edges (STRICT cross-chain rule).

Role mix: mobility (4), area_damage (4), defensive (3).

Element distribution: physical (11), water (2).

Mean scaling_coefficient progression: T1:1.069 → T2:1.088 → T3:1.156 → T4:1.215
